

Cedaredge Golf Course

ADOPT A HOLE

Cedaredge Golf Course has benefited greatly from the efforts of our volunteers over the last two years. As the course continues to noticeably improve, more and more people are asking how they can help and get involved.

In response to these requests, our Cedaredge Golf Advisory Board has proposed The Adopt A Hole Program. The Adopt A Hole Program is designed to promote golfer involvement and instill a sense of community spirit. But you don't have to be a golfer. Anyone that would like to participate in this program is welcome.

A special thanks to Golf Advisory Board Member Lynn Spears for coordinating the ADOPT A HOLE PROGRAM.

How It Works

Volunteers participating in the program will be asked to select a hole on the course as their adopted hole and spend some time (30-45 minutes a day, 2-3 days a week) helping by filling divots with sand, repairing ball marks on the green, picking up broken tees from the tee box areas, raking bunkers and gathering debris and trash from the golf course. If you see an issue on your hole that is beyond the defined scope of work, let us know in the pro shop and we will take care of it.

These tasks can be done while you are playing a round (as long as you don't hold up play) or you can coordinate with the pro shop during slower times on the course to get a bucket of sand, borrow a cart (no charge) and head out to your adopted hole.

We also have the Driving Range Tee and Practice Green available for adoption.

For more information or to sign up, visit or call the Pro Shop. They'll provide you with the form and answer your questions.
